A NEW PRECISION FARMING DISPLAY

XCN-1050

PRECISION LAND MANAGEMENT SOLUTIONS

STAY CONNECTED WITH PRECISION

The new New Holland PLM® XCN-1050 display brings you the ISOBUS capabilities, plus a number of other features and capabilities, all designed to make your job in the field more accurate, repeatable, economical and sustainable. The new display has the same Android-based user interface as the proven XCN-2050 display, and allows an easy and intuitive display operation and touchscreen features, similar as on an Android smartphone. You can also install numerous apps to extend and optimize the application according to your business operations. To sum up, the display is compact and easily transferable, and is predestined to make your work more efficient and productive day by day: that is exactly what you have been waiting for.

For more information please contact  
our PLM Specialist Sam Illingworth  
on 07908 504701 or via email:  
sam.illingworth@robertdwebster.co.uk

PRECISION HAS NEVER BEEN SO EASY

With the new New Holland PLM® XCN-1050 display, there is no need for complicated instructions or long admissions, before you can put all of your precision skills to your agricultural work right from the beginning. The interface of the display is similar to an Android smartphone, and its immediate integration into your machine as well as its functions allows you to be productive within the area of precision farming.

- High performance
- Easy to use
- Simple systems

# BENEFITS OF USING A RECOGNISED DEALERSHIP

There are many benefits when opting to have your tractor or combine serviced or repaired by Robert D Webster Ltd. First and foremost, you get greater security and reassurance your warranty will be preserved. Whilst some independents will want to service your tractor or combine, Robert D Webster Ltd, a franchised New Holland Dealership, can guarantee their work, both parts and labour, which goes a long way to protecting your machines residual value.

Independents would invalidate your machines warranty by using non-genuine replacement parts and none registered and unqualified technicians. We will make certain our components are certified by the manufacturers themselves, not to mention the access we have to the most up-to-date diagnostic and monitoring equipment. All our technicians are fully trained by the manufacturers every year, independents are not. Independents will not have the latest info and technology in their workshop and often cause problems to the sophisticated electronics on your machines when worked upon.

Remember parts supplied and fitted by Robert D Webster carry a manufacturer backed warranty of up to 12 months. Remanufactured parts make a more cost-effective repair, but when fitted by Robert D Webster, they can carry a parts and labour warranty of up to 24 months.

When you buy a pre-owned tractor or combine, we will provide a warranty certified through the manufacturer, and will be able to provide written evidence of this. If you are looking at financing options for the vehicle, main dealerships will usually offer a lower interest rate than the independents due to their closer relationship with the manufacturer.

Servicing your tractor or combine regularly with Robert D Webster, will have a positive benefit on your resale value. Prospective buyers prefer to see an official dealer stamp in the book rather than a local independent. If you have bought a new or near-new tractor or combine, this is definitely worth considering.
