Pack on 10 rockets

£54.30 + vat
250 Superfast pigeon

£60.00 + vat
250 Special pigeon

Rodenticide Regulations for 2018

Important changes to take place.

In 2016 we saw a dramatic change in the regulations governing the sale of rodenticides (Rat bait). The ThinkWildlife group defined that clear amateur and professional rodenticide pack labelling should be introduced and certification required for sale was needed.

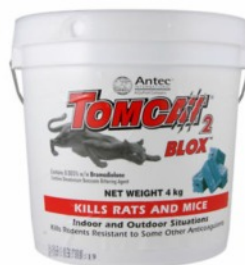

As of 1 March 2018 all amateur packs will reduce in size from 1.5kg down to 300 g. The active ingredient shall also be reduced from 50 ppm down to 30 ppm.

Professional packs will start from 3 kg and the active ingredient ratio shall stay the same.

All sales of professional packs will need a farm assurance scheme number or a CRRU approved certificate.

**5 kg Rat packs
£47.69 + vat**

**4 kg Blox
£41.43 + vat**

**10 kg Loose
£69.02 + vat**

**20 kg Loose

Rob Dee

New Holland Brand Ambassador

Robert D Webster Ltd, would like to welcome Mr Rob Dee to his position as our New Holland Brand Ambassador. Rob has over 40 years of agricultural machinery experience predominantly with New Holland & the associated brands of CNH Industrial. His vast knowledge and experience will be a great asset to the sales team and will help to continue the growth and development of Robert D Webster Ltd as a major force within the agriculture machinery sector. Welcome to the team Rob!

NEW HOLLAND TELEMATICS

Manage your machine with New Holland telematics

With New Holland telematics you gain access to a powerful tool to track your assets, understand activity through a comprehensive reporting suite and improve your security.

Telematics technology will enable you to remotely review hours of operation, activity reports, track assets and ensure the security of your machinery.

Effectively manage maintenance scheduling and rest easy in the knowledge that all of your machines can be instantly tracked and alert you if they leave a specified geographic area.
