**DEEPER, HIGHER
CAPACITY BOX**

**200+ COMPATIBLE
ACCESSORIES**

CLASS-LEADING GROUND CLEARANCE

Boasting class-leading ground clearance, increased by 20% to 33 cm, the RANGER Diesel is equipped with Dual A-Arm suspension on the front and with Dual A-Arm Independent Rear Suspension (IRS) fitted with 27.9 cm of suspension travel. The suspension brushes are sealed for ease of maintenance, with stabiliser bars fitted to the front and rear.

CLASS-LEADING TOWING CAPACITY

FEATURES AND BENEFITS - RANGER® DIESEL

The RANGER® Diesel features an all-new diesel engine, upgraded chassis and superior levels of comfort, handling and driving capabilities. The modern rugged design, next-level in-cab comfort and industry-leading towing and ground clearance make it the hardest-working, smoothest-riding SxS ever built.

PERFORMANCE: Capable only Scratches the Surface

Featuring an unrivalled amount of towing capacity (1,134 kg), payload capacity (720 kg) and ground clearance (33 cm), it's always in a position to make work happen.

REFINEMENT: New Styling. More Storage. More Comfort

With over 200 engineered accessories, added seat cushioning, and 17% more storage, you're able to customize and elevate every ride with the RANGER® Diesel.

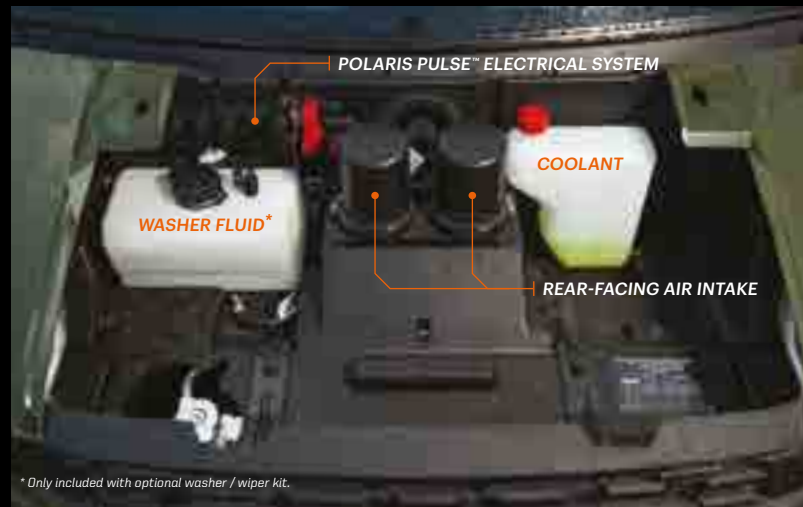

RELIABILITY & DURABILITY: Built for the Heavy-Duty Long Haul

The new RANGER® Diesel is made to perform to the highest standards for years to come.

2-piece CV sealed system

Mud block-off panels

* Only included with optional washer / wiper kit.

898CC DISPLACEMENT	55.2Nm TORQUE	43.5L FUEL CAPACITY	1,134KG TOWING CAPACITY	720KG PAYLOAD CAPACITY	435KG BOX CAPACITY	3UP SEATING CAPACITY	766KG EST. DRY WEIGHT	33CM GROUND CLEARANCE	27.9CM SUSPENSION TRAVEL
------------------------------	-------------------------	-------------------------------	-----------------------------------	----------------------------------	------------------------------	--------------------------------	---------------------------------	---------------------------------	------------------------------------

THE DIESEL ENGINE

The three-cylinder diesel engine is the most powerful in its class, delivering 55.2 Nm of torque, paired with more consistent power and better torque distribution for a smoother ride. The RANGER® Diesel has the highest top speed in its class of 40 mph.

LONGEVITY

With a lower cost of ownership thanks to 200 hours between oil service intervals, plus a longer filter life, better seal against dirt and dust, and less oil consumption, the RANGER® Diesel is built for the heavy-duty long haul.

OFF-ROAD CAPABILITIES

The RANGER®'s upgraded off-road capabilities give it the highest marks in high-performance reliability. Improved driving and handling delivers a more stable ride on any terrain, with better uphill power and a tighter turning radius to get the work done, faster.

UPGRADED CHASSIS

Boasting an aggressive style with its one-piece chassis. More rugged throughout with reduced flex, the chassis design is even more robust for an improved ride; offering a large front bumper with integrated winch mount, plus a full body skid plate for 50% more protection to the underside of the vehicle.

INTERNALLY

The wider chassis seats three people with more legroom to get in and out of the

vehicle. The plusher seats feature 2.5 cm of extra cushioning with a flip-up passenger seat, and there's 17% more storage with six cup holders and two glove boxes. Plus less engine noise in-cab and upgraded technology like a new digital gauge.

TRUE ON-DEMAND TECHNOLOGY

On-demand all-wheel drive (AWD) when selected, means all four wheels engage automatically when the vehicle needs more forward traction and reverts back to two-wheel drive when it doesn't.

EPS

The added benefit of electric power steering (EPS) that lets you ride all day with less fatigue, with variable assist for easier steering at lower speeds and greater responsiveness at higher speeds.

INSTALLED TECHNOLOGY

The Engine Braking System (EBS) with Active Decent Control (ADC) controls downhill braking for smooth, controlled descents on steep declines with or without a load.

ACCESSORIES

Polaris® is proud to offer over 200-engineered accessories to elevate every ride with the RANGER® Diesel. From cab systems to winches, there's an accessory waiting to make the RANGER® work even harder and smarter.

KUBOTA ENGINE

A BETTER EXPERIENCE

- Smoother idle
- Better start-up in cold weather
- More consistent power

LOWER COST OF OWNERSHIP

- 200 hours between maintenance intervals
- Less oil consumption

2-YEAR WARRANTY

ULTIMATE PEACE OF MIND
All models come with a 2-year warranty as standard.

RANGER **XP[®] 1000**

BRILLIANT LIGHTS

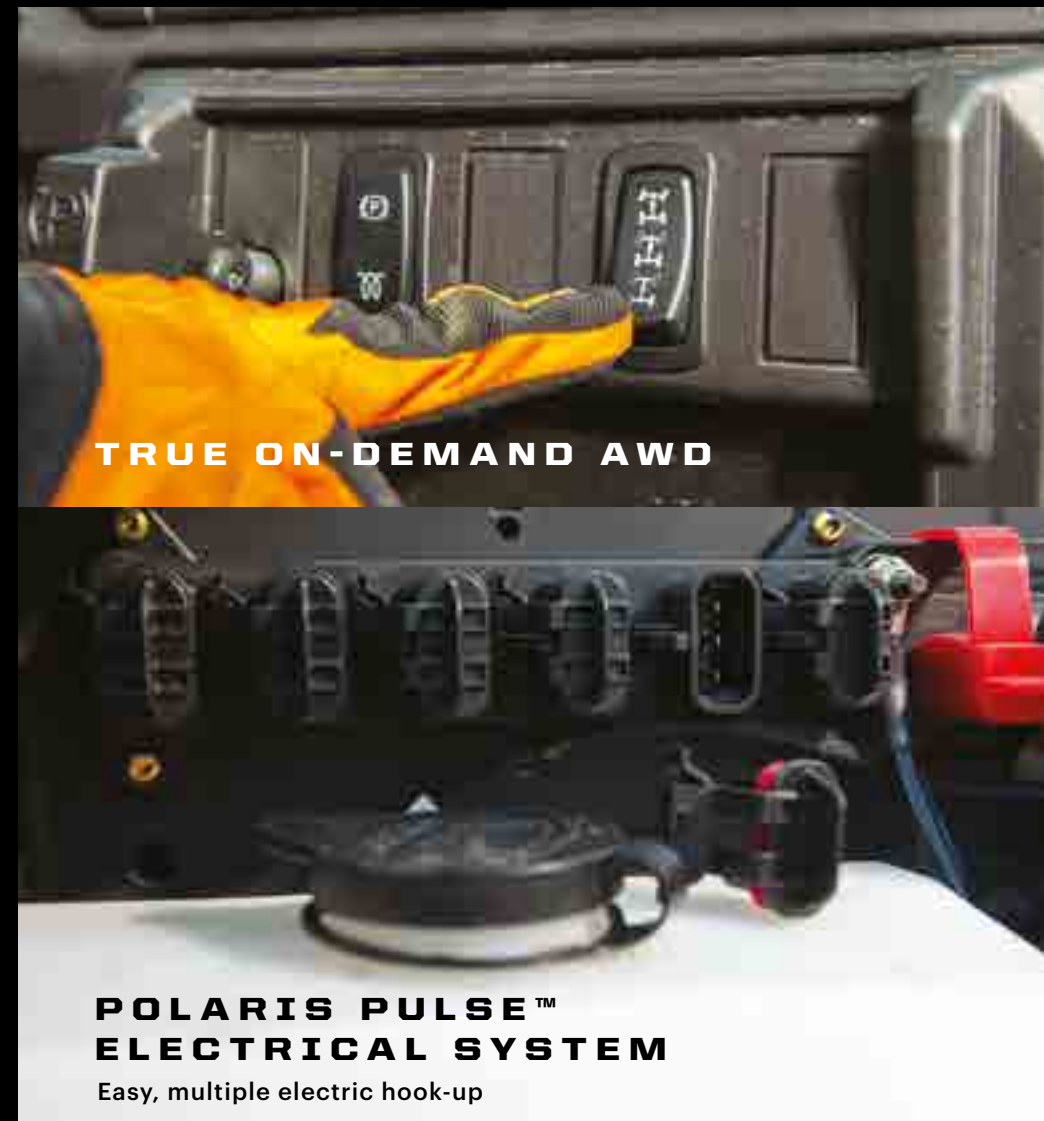

**1,134 KG TOWING
CAPACITY**

FEATURES AND BENEFITS - RANGER XP® 1000

For every job and every passion, the RANGER XP® 1000 packs class-leading hauling, power, all-day comfort and unrelenting toughness so you can finish big jobs, tackle tough trails and outlast the longest days.

TRUE ON-DEMAND AWD

**POLARIS PULSE™
ELECTRICAL SYSTEM**

Easy, multiple electric hook-up

EXTREME COMFORT

Driver-first design with a refined interior and easy entry and exit with 12.7 cm more room makes for ultimate all-day comfort.

AMPLE STORAGE

Spacious cab comes standard with 61 litres of storage with in-floor D-Rings, and features under seat solutions for both the driver and passenger.

IN-CAB ESSENTIALS AND COMFORT

Integrated dual glove box for secure, easy to access storage plus six oversized cup holders and two bottle holders.

Adjustable steering wheel, plush cushion seats and seat sliders provide premium comfort for long days.

RUGGEDLY DURABLE

This machine only gets tougher over time with the heavy-duty Pro-PVT clutch system and 32% larger drive belt for longer life.

PERFORMANCE WITH PRECISION

Three-position, user-selectable throttle control to select from Performance, Work and Standard mode depending on the job or trail.

HEAVY-DUTY TYRES

Massive 27" Maxxis 6-Ply tyres, providing unrivalled traction and puncture resistance for sharp elements on the terrain.

MAXIMUM PROTECTION

Class-leading protection comes from the full-body skid plate and 33 cm of ground clearance.

DESCEND CONFIDENTLY

Integrated engine braking ensures ideal power and control on the steepest descents.

CAPABILITY AND VERSATILITY REDEFINED

Big cargo box capacity with innovative features providing hauling solutions to haul more for big jobs or long recreational days.

HALF TON CAPACITY

Our deepest cargo box yet lets you confidently haul up to a class-leading 454 kgs

15.5 KGS BUCKET RINGS

The wide box dimensions allow you to fit up to four 15.5 kgs buckets across a single row of the bed. Regardless of shape or size, so no item is left behind.

REINFORCED TIE-DOWN POINTS

Utilise the four-standard tie-down points to secure larger loads for any job.

PROSTAR® 1000 ENGINE

The RANGER XP® 1000 delivers the utility performance and acceleration you expect from the industry's most premium SxS. Its ProStar® 1000 engine delivers power to take on the toughest tasks.

UNSTOPPABLE PERFORMANCE. UNBEATABLE VALUE

The RANGER[®] 570 puts best-in-category two-person utility side-by-side performance in your hands. This ultimate value workhorse is equipped with features you need to get every job done, and comfort you desire for successful days on the trails or around your property.

UTILITY OR RECREATION

After a long week of work, take a break, pack-up your RANGER[®] 570 and take it down to the river for a relaxing day of fishing with friends and family. With the 454 kg payload capacity and 227 kg box capacity you have all the room you need to haul your gear for a full day trip.

ADJUSTABLE TILT STEERING

Utilize the tilt steering to adjust the position of the steering wheel to easily enter and exit the vehicle.

VERSATRAC TURF MODE

For work around the house, unlock the rear differential for easier and tighter turns that won't tear up your lawn.

STANDARD 50 MM HITCH

Connect your trailer to your RANGER[®] with the standard 50 mm hitch and maximize the impressive 680 kg towing capacity.

PROPERTY MAINTENANCE

There's always another job to do around the property. The RANGER[®] 570 comes standard with a versatile cargo box and makes it easy for you to load and unload supplies for the job.

GAS ASSIST DUMP BOX

For the larger loads, utilize the gas assist dump box to unload the bed of your RANGER[®].

HAUL MORE

Take advantage of the versatile bed box and haul all up to 227 kg of your work supplies needed to get any job done.

PURPOSE-BUILT ACCESSORIES

Upgrade your RANGER[®] with the easy-to-install Polaris[®] Engineered Accessories. With the Lock & Ride functionality, you can easily create a more versatile box, haul more, and protect your SxS from the elements.

FEATURES AND BENEFITS - SPORTSMAN® 570

Take on any job or trail whether you go alone or bring a friend along for the ride.

RIDE HARDER

The SPORTSMAN® gives you the legendary ride and handling you demand, along with an integrated passenger seat system for 2-Up versatility. With our seating system, purposefully designed for full comfort and support, you'll be ready to take on any job or trail whether you go it alone or bring a friend along for the ride. The highest ground clearance starting at 28 cm and longest 24 cm rear suspension travel keeps you and your passenger riding in comfort all-day long.

GO FURTHER

The rider-inspired 2020 SPORTSMAN® take you deeper into trails and terrain. The industry's fastest-engaging All-Wheel Drive (AWD) handles around corners and over rocks without hesitation. More efficient underbody airflow makes for cooler and quieter riding, so you can ride longer in pure comfort. The industry-leading 35 litres of sealed storage and factory-installed third headlight allow you to ride longer and later to accomplish everything on your list - work or play.

DO MORE, WITH SPORTSMAN®

The 2020 SPORTSMAN® lets you haul more with over 556 kg in towing capacity, 220 kgs payload capacity and 123 kg of combined front and rear rack capacity. A factory-installed winch and plow mount plate allows for speedy accessory integration to get the tough jobs done quickly.

THE WORLD'S BIGGEST, BADDEST ATV

SPORTSMAN XP 1000 S

UNEXPECTED. UNPRECEDENTED. It's time to break the rules with the industry's first sport-utility ATV boasting a massive 139.7 cm wide stance. Featuring jaw-dropping capabilities, it redefines control, reinvents durability and reimagines the segment.

NOT REINFORCED... REDESIGNED

If you want to completely reinvent the ATV, you need to start at the foundation, which is exactly what we did. The entire chassis of the SPORTSMAN® XP was developed to work in harmony with the bold performance attributes it delivers. We then complimented this rugged design with resilient components giving you the confidence to push further, work harder, and tackle the worst Mother Nature has to offer and never back down.

ALL-NEW PLATFORM

Looks can be deceiving, but rest assured beneath those muscular lines Polaris® engineers developed an entirely new chassis – one that's bigger, bolder, and stronger than ever before. With 31% larger main-frame tubing, it was designed to be abused, stomped on, and beaten through the worst terrain and never give in.

STRONGER TRANSMISSION

Some ATVs look tough, but we knew the new SPORTSMAN® XP 1000 S had to deliver which is why we completely redesigned the transmission with 25% stronger components to work in harmony with the increase in travel, ground clearance and larger tires.

THE WORLD IS WAITING, CONQUER IT

The all-new SPORTSMAN® XP is designed to succeed where others dare not tread. Armed with an arsenal of never-before-seen factory equipped performance attributes, it redefines capability in every way, resulting in a level of confidence never before experienced with an ATV.

INDUSTRY'S FIRST 139.7CM STANCE

If you want to shatter the status quo you need to do the unthinkable. Introducing the world's first 139.7 cm wide-stance ATV. Delivering a level of stability and performance never before thought possible in an ATV. Crawl your way through jagged rocks, navigate deep rutted trails, and straighten a twisted wooded path with uncanny accuracy.

AGGRESSIVE 27" TYRES

The impressive wide-stance of the all-new SPORTSMAN® XP 1000 S is enhanced with 27" Duro Powergrip tyres. Rugged construction resists punctures and a unique tread pattern is engineered for maximum grip in varied terrain.

TOWERING 36.8 CM CLEARANCE

The world knows no limits when it comes to terrain, which is why we rose above the expected and developed an ATV delivering a terrain shattering 36.8 cm of ground clearance. Combined with the wide, stable stance and long-travel suspension, little can stand in the way between you and destinations unknown.

UNCOMPROMISING CONTROL.

New ProSteer Technology eliminates bump-steer and allows the XP 1000 S to deliver fluid, predictable steering with assured confidence in challenging terrain at even more challenging speeds.

POLARIS SCRAMBLER® XP® 1000 S

SHATTER THE STATUS QUO

We've redefined the ATV by every measure — an aggressive 139.7 cm stance elevates performance and stability. Bold 27" Duro® Powergrip tyres deliver maximum grip and control; and a jaw-dropping 35.5 cm of suspension travel dominates the most unrelenting terrain.

ALL-NEW PLATFORM

Polaris® engineers developed an entirely new chassis – one that's bigger, bolder, and stronger than ever before. With 31% larger main-frame tubing, it was designed to be abused, stomped on, and beaten through the worst terrain and never give in.

RZR® S FRONT DIFFERENTIAL

To get the toughest performance-focused design for our all-new SCRAMBLER® XP 1000 S, we needed to go to the one of most dominating, race-proven side-by-sides in the world - the RZR® XP 1000. We utilized the front differential and half-shafts and brought a 15% increase in component strength, delivering rugged dependability with unquestioned confidence.

STRONGER TRANSMISSION

Some ATVs look tough, but we knew the new SCRAMBLER® XP 1000 S had to deliver which is why we completely redesigned the transmission with 25% stronger components to work in harmony with the increase in travel, ground clearance and larger tyres.

THE WORLD IS WAITING, CONQUER IT

In the real world, success isn't graded on a curve. Here, where the terrain is unforgiving no one gets a free pass and failure isn't an option. The all-new SCRAMBLER® XP 1000 S is designed

to excel where others dare not tread. Armed with an arsenal of never-before-seen factory equipped performance attributes, it redefines a performance quad in ways never thought possible, resulting in a level of confidence and extreme performance beyond limits.

INDUSTRY'S FIRST 139.7 CM STANCE

If you want to shatter the status quo you need do the unthinkable. Introducing the world's first 139.7 cm wide-stance performance ATV. Delivering a new level of stability and performance never thought possible for an ATV. Crawl your way through jagged rocks, navigate deep rutted trails, and straighten a twisted wooded path with uncanny accuracy.

BUMPSTEER ELIMINATION

The all-new SCRAMBLER® XP 1000 S virtually eliminates bumpsteer through an exclusive ProSteer steering design for a level of fluid precision that is destined to turn the industry on its ear.

MORE TRAVEL WITH MORE CONTROL

Unshackle yourself from conventional thinking and experience control without sacrifice. The all-new SCRAMBLER® XP 1000 S delivers a series of industry-first designs including a new long-travel suspension system that crushes terrain with uncanny smoothness.

RZR[®] RS1

MOST AGILE RZR[®] EVER

WHAT IS SXS?

It means we race four wheeled vehicles with seating for two, side by side.

SXS Racing has the same thrills, excitement and jumps of Motocross but with the comfort and safety of being harnessed into a seat behind a sturdy roll-cage.

POLARIS[®] BRITISH SHORT CIRCUIT CHAMPIONSHIP

The Polaris[®] British Short Circuit Championship has grown and improved year on year, becoming the UK's premier racing championship for all makes and models of SXS. Run over five rounds, on purpose built tracks all over the country, the BSCC attracts entrants from diverse backgrounds. Whether you're a motocross veteran or looking to get into competitive motorsport for the first time, you will find a home here.

Each of the five Championship rounds follow the same format for each class; a qualifying session to determine the starting grid, followed by three 15 minute races. We have a full staff of marshals and officials to ensure that although the competition is fierce, it is always fair and always safe.

POLARIS[®] BRITISH ENDURO CHAMPIONSHIP

Building on the success of the Polaris[®] British Short Circuit Championship, The Polaris[®] British Enduro Championship was established in 2016. It was created to meet the demand for a different kind of racing. Run over five rounds with tracks all over the country, the Enduro Championship has already been a huge success.

Each round consists of a two-hour race with vehicles being released at staggered intervals. Although all vehicles will be on the track at the same time your real opponent is the clock! This is a marathon not a sprint. Controlled and precise driving is rewarded. Pushing yourself and your vehicle to the limit for two hours. This is the ultimate test of man and machine.

POLARIS[®] SXS BRITISH YOUTH CHAMPIONSHIP

Specifically aimed at those racers who are still too young to compete in the Short Circuit and Enduro Championships, SXS Racing introduced the Polaris Youth Championship Series in 2017.

The Polaris[®] Championship is open to all abilities and will serve as an excellent introduction to competitive motorsport. Keep an eye out for test days for you and your child to try out the vehicles and get a taste of the action.

FEATURES AND BENEFITS - RZR® MODELS

RZR XP® TURBO EPS

ULTIMATE COMBINATION OF POWER, SUSPENSION AND AGILITY

Through relentless innovation and a passion for the ride, RZR® is the world-leader in off-road domination. There's more to achieving the pinnacle of Xtreme Performance than simply developing around just power or big travel. Each RZR is extensively engineered to deliver an optimally balanced chassis, and the ultimate combination of power, suspension and agility.

ALL NEW DESIGN - INSIDE AND OUT

Inside the dark heart of the beast, the entire cockpit has been re-engineered.

- Premium Painted Panels
- Menacing LED Lighting
- Digital Display Cluster
- Redesigned Interior
- Lower Doors

TURBOCHARGED FURY - PROSTAR® ENGINE

From the moment you stomp the accelerator, the world's most powerful RZR® comes alive with a chaotic fusion of raw power and mind-numbing acceleration. Fuel is electrified with a forced charge of induction creating an unequalled combination of horsepower and locomotive low-end torque, in excess of 114 FT-LBS, with instant delivery. When unleashed, it's a force others can only follow.

INSTINCTIVE CONTROL - INDUSTRY LEADING AGILITY

RZR® industry-leading agility is no accident. Our engineers developed the ultimate combination of chassis, suspension, steering geometry, AWD, and power to create an off-road vehicle with a level of high-performance handling and agility so responsive, it practically reads your mind.

RZR XP® TURBO S

MONSTROUS 32" TYRES

For the first time ever... 32" tyres offered straight from the factory on 15" aluminum wheels. Custom designed for more grip, control, and 8-ply rated for 249% more resistant to punctures than Maxxis® Bighorn 2.0s. We even turned up the EPS assist to point that rubber with effortless touch.

TOWERING 40.6 CM CLEARANCE

Nothing else measures up. The RZR XP® Turbo S touts an unstoppable 40.6 cm of ground clearance, and even though we've pushed to new clearance heights we maintained the wickedly low center-of-gravity. Equal to current XP® Turbo.

FOX 3.0 IBP LIVE VALVE SHOCKS

New upgraded Internal Bypass FOX® Shocks feature enhanced calibration for the DYNAMIX Active Suspension system to

optimize every single inch of the massive suspension travel for both low-speed comfort and high-speed performance, on-the-fly.

DYNAMIX ACTIVE SUSPENSION

DYNAMIX was designed so you no longer have to choose between setting your suspension for a comfortable ride or for performance. Now you get the best of both every time you ride because DYNAMIX adjusts automatically as you're driving.

RACE-INSPIRED COCKPIT

The bold new sculpted dash houses a revised gauge package that offers greater diagnostic detail when navigating rugged terrain at speed. Standard 7-inch Ride Command® Screen and enhanced storage solutions bolsters connectivity and capability.

RZR XP® 1000 EPS

This model is cut more aggressively and comes equipped with a refined cockpit to crush any terrain.

CONTROLLED CHAOS - SUSPENSION

The intense interaction between vehicle and terrain can be nothing short of ruthless. Rocks, stumps, silt sand, mud, all being encountered at high-speed. This unrelenting onslaught is tamed with industry-leading suspension for unmatched control, confidence, and comfort. With an incredible 45.7 cm of travel, and stage-tuned Walker Evans® Needle Shocks, the race proven design has earned countless victories in the most rugged places on earth.

NASTY OUTSIDE

Cut more aggressively with menacing looks, the chiseled, muscular style, premium digital instruments, and wicked LED accents, all hint at the heart of the animal within.

NICE INSIDE

A new driving position is mated to a sculpted hood design resulting in uncompromised sight lines and race-inspired, yet comfortable ergonomics. Bold new sculpted dash houses a revised digital gauge cluster that offers greater diagnostic detail when navigating rugged terrain at speed.

PRIMAL ILLUMINATION

Visually assaulting LED lighting not only helps to define the menacing stature of the new RZR XP® Turbo, it also greatly enhances visibility. The new LED lighting package includes new blacked-out LED headlights, signature LED accent lights, and high-visibility LED taillights.

COMING SOON

RZR PRO XP® ULTIMATE

This new machine delivers the next level of performance in agility, capability, and versatility for the off-road's most demanding drivers.

SAVAGE SUSPENSION

An Industry Leading 55.9 cm of usable suspension travel on a 64" SxS, that's almost as much as a 183 cm wide Turbo S. AND it's the kind that you can actually use in a suspension event before bottoming out on the skid plate, like our competitors.

DYNAMIX 2.0

Control in challenging fast and gnarly terrain is instantaneous with automatic, on-the-fly adjustments, steering wheel controls, for mode switching and the "X" button for high-speed surprises, and improved FOX® 2.5 Podium Live Valve Shocks you can take corners flatter, dominate big whoops, and ride in greater comfort.

BASE and PREMIUM models also available, contact your dealer for more information.

PRO CHASSIS

This chassis is a home run. Pro XP measures at 243.8 cm of stable wheelbase, that's 15 cm longer than the old chassis, BUT it comes with better agility, including improvements in off-tracking, ramp over angle and turning radius. Without a single compromise, it adds straight-line stability, while actually improving agility and versatility.

DRIVER PERFECTION

You don't just drive the new PRO XP, you become part of it. The driver-centric cockpit design sits you lower in the chassis in brand new 4-way sport seats, secured by 6-point retractable harnesses, while the industry's first telescopic and tilt adjusting flat-bottom steering wheel extends out with ergonomic perfection for ideal control and infinite adjustability, through brutal terrain.

RZR® RS1

Delivering power and precision for a deliver-focused off-road experience unlike any other.

DROP THE HAMMER

The power and acceleration of the ProStar® H.O. engine is even more impressive when harnessed within the lighter and optimally balanced RZR® RS1. Response is instant with the new high-performance clutch and corner-to-corner acceleration unmatched. There's no holding back.

APEX HUNTER - AGILITY

Harness the violent interaction of churning rocks, explosive octane, and forward thrust with exacting precision. A compact 210.8 cm wheelbase combined with an optimally balanced and lightweight chassis results in the most agile RZR® we've ever developed. The RS1 hugs corners with precision, charges unnerving terrain with confidence, and launches with predictable flight.

BUILT FOR DRIVERS - COCKPIT

Driver-only design and centre-cockpit creates exceptional sight-lines both ahead and to the periphery. Designed for a dynamic driving experience, the race-inspired driver ergonomics and new steering position creates extra room for active arm and leg ergonomics. A new brake system gives drivers the option of traditional single-foot action, or rally-inspired two-foot performance.

RACE INSPIRED FEATURES

- Centre-Cockpit Seat
- Compact Optimally Balanced Chassis
- Rear-Mounted Dual-Fan Radiator
- Race-Hardened Drivetrain
- Two-Foot Brake Pedal

POLARIS

Warning: Polaris off-road vehicles can be hazardous to operate and are not intended for on-road use. Driver must be at least 16 years old with a valid driver's license to operate. Passengers, if permitted, must be at least 12 years old. All riders should always wear helmets, eye protection and protective clothing. Always use seat belts and cab nets or doors (as equipped). Never engage in stunt driving, and avoid excessive speeds and sharp turns. Riding and alcohol/drugs don't mix. All riders should take a safety training course. Availability varies by market; contact your local dealer for availability. Check local laws before riding on trails. ©2019 Polaris Industries Inc.

Youth models have special age restrictions. The Polaris RZR 170 and ACE 150 are intended for operators ages 10 and older; 50-cc ATV models are intended for operators ages 6 and over; 110-cc ATV models are intended for operators ages 10 and older; and the 200-cc ATV is intended for operators age 14 and older. All Polaris youth vehicles require adult supervision at all times for operators under age 16.
